1. Composition of capital

The tables below summarise the ratios and the composition of regulatory capital of Dah Sing Bank, Limited ("the Bank"). All the information presented below is unaudited.

The Bank complied with all of the externally imposed capital requirements by the Hong Kong Monetary Authority ("HKMA").

1.1 Capital adequacy ratio

	Restated
As at	As at
31 December 2013	31 December 2012
Basel III basis	Basel II basis
10.4%	Not applicable
10.4%	10.4%
14.5%	14.9%
	31 December 2013 Basel III basis 10.4% 10.4%

The capital adequacy ratio as at 31 December 2013 represents the consolidated ratio of the Bank computed on Basel III basis in accordance with the Banking (Capital) (Amendment) Rules 2013 (the "Rules") and the transitional arrangement set out therein, which became effective on 1 January 2013.

The capital adequacy ratio as at 31 December 2012 represents the consolidated ratio of the Bank computed on Basel II basis in accordance with the Banking (Capital) Rules which have now been superceded by the Rules.

In the calculation of the consolidated capital adequacy ratios, the Bank and those subsidiaries consolidated in the calculation as set out in Note 1.2 below other than Banco Comercial de Macau, S.A. ("BCM") and Dah Sing Bank (China) Limited ("DSB China") have adopted the standardised (credit risk) approach for the calculation of the risk-weighted amount for credit risk. The Bank and its subsidiaries have adopted the basic indicator approach for the calculation of the risk-weighted amount for operational risk, and the standardised (market risk) approach for the calculation of the risk-weighted amount for market risk.

For BCM, the risk-weighted amount for credit risk is calculated using the basic approach prescribed by the banking regulator in Macau. For DSB China, the risk-weighted amount for credit risk in the calculation of the consolidated capital adequacy ratio as at 31 December 2013 and 31 December 2012 is calculated using the standardised (credit risk) approach and the basic approach respectively to comply with the rules set by the banking regulator in China.

Only the Bank is subject to the minimum capital adequacy requirement under the Hong Kong Banking Ordinance. BCM is subject to Macau banking regulations and DSB China is subject to China banking regulations.

1. Composition of capital (Continued)

1.2 Subsidiaries included under the regulatory scope of consolidation

The following is a full list of the Bank's subsidiaries as at 31 December 2013 and 31 December 2012, and the total amount of assets and equity of each of these subsidiaries as at 31 December 2013.

For financial reporting purposes, all the subsidiaries have been consolidated in the financial disclosure statement. The subsidiaries which are excluded from the regulatory scope of consolidation are specified with explanatory notes provided below.

HK\$'000

			As at 31 December 2013

Shinning Bloom Investments Limited	Inactive	(b)	-	-	

Note:

Wise Measure Limited

(a) Subsidiary falls into the category of "financial sector entities" as defined by the Rules and the category of "regulated financial entities" as defined by the then Banking (Capital) Rules.

Property investment

In calculating the consolidated capital adequacy ratio as at 31 December 2012 under the Basel II basis, the Bank deducted the cost of investments in the subsidiary from its capital base. In calculating the consolidated capital adequacy ratio as at 31 December 2013 under the Basel III basis, the portion of the aggregate significant investments in Common Equity Tier 1 capital instrument issued by financial sector entities, not subject to regulatory consolidation, that exceeded the 10% concessionary threshold was deducted from capital base. The amount within 10% concessionary threshold was risk-weighted.

(b)

(b) Subsidiaries are property investment or financing entities which do not operate any business, or are inactive.

In calculating the consolidated capital adequacy ratio as at 31 December 2012 under the Basel II basis, the Bank deducted the cost of investments in these subsidiaries from its capital base. In calculating the consolidated capital adequacy ratio as at 31 December 2013 under the Basel III basis, the Bank risk-weighted the cost of investments in these subsidiaries and did not deduct them from its capital base on the basis that the total cost of investment does not exceed 15% of the Bank's capital base as at the immediately preceding calendar quarter-end date.

1. Composition of capital (Continued)

1.3 Components of regulatory capital elements

The capital base used in the calculation of the above consolidated capital adequacy ratios and reported to the HKMA is analysed below. The capital base as at 31 December 2013 is calculated on Basel III basis in accordance with the Rules and transitional arrangement set out therein. The capital base as at 31 December 2012 is calculated on Basel II basis in accordance with the then Banking (Capital) Rules. The capital base as at 31 December 2012 has been restated to reflect the change in the accounting policy for premises to the cost basis.

The comparatives of the components of the regulatory capital elements have not been restated on the ground that different approaches have been used to calculate the consolidated regulatory capital of the Bank in the year ended 31 December 2013 and the year ended 31 December 2012.

Notes to the template

Elements where a more conservative definition has been applied in the BCR relative to that set out in Basel III capital standards:

Row No.	Description	Hong Kong basis	Basel III basis			
	Other intangible assets (net of associated deferred tax liability)	66,242	66,242			
9	Inability)ExplanationAs set out in paragraph 87 of the Basel III text issued by the Basel Committee (December 2010), mortgage servicing rights (MSRs) may be given limited recognition in CET1 capital (and hence be excluded from deduction from CET1 capital up to the specified threshold). In Hong Kong, an AI is required to follow the accounting treatment of including MSRs as part of intangible assets reported in the AI's financial statements 					
	Deferred tax assets net of deferred tax liabilities	27,520	4,065			
10	ExplanationAs set out in paragraphs 69 and 87 of the Basel III text issued by the Basel Committee (December 2010), DTAs that rely on future profitability of the bank to be realized are to be deducted, whereas DTAs which relate to temporary differences may be given limited recognition in CET1 capital (and hence be excluded from deduction from CET1 capital up to the specified threshold). In Hong Kong, an AI is required to deduct all DTAs in full, irrespective of their origin, from CET1 capital. Therefore, the amount to be deducted as reported in row 10 may be greater than that required under Basel III.The amount reported under the column "Basel III basis" in this box represents the amount reported in row 10 (i.e. the amount reported under the "Hong Kong basis") adjusted by reducing the amount of DTAs to be deducted which relate to temporary differences to the extent not in excess of the 10% threshold set for DTAs arising from temporary differences and the aggregate 15% threshold set for MSRs, DTAs arising from temporary differences and significant investments in CET1 capital instruments issued by financial sector entities (excluding those that are loans, facilities and other credit exposures to connected companies) under Basel III.

Notes to the template (Continued)

Row No.	Description	Hong Kong basis	Basel III basis		
	Insignificant capital investments in CET1 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold)	0	0		
	Explanation				
18	For the purpose of determining the total amount of insignificant capital investments in CET1 capital instruments issued by financial sector entities, an AI is required to aggregate any amount of loans, facilit other credit exposures provided by it to any of its connected companies, where the connected company financial sector entity, as if such loans, facilities or other credit exposures were direct holdings, indirect holdings or synthetic holdings of the AI in the capital instruments of the financial sector entity, except w the AI demonstrates to the satisfaction of the Monetary Authority that any such loan was made, any suc facility was granted, or any such other credit exposure was incurred, in the ordinary course of the AI's business.				
	Therefore, the amount to be deducted as reported in row 18 n The amount reported under the column "Basel III basis" in th (i.e. the amount reported under the "Hong Kong basis") adjus facilities or other credit exposures to the AI's connected comp Hong Kong approach.	is box represents the amo sted by excluding the aggr	unt reported in row 18 egate amount of loans,		
	Significant capital investments in CET1 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold)	7,121	7,121		
	Explanation				
19	For the purpose of determining the total amount of significant instruments issued by financial sector entities, an AI is require facilities or other credit exposures provided by it to any of its company is a financial sector entity, as if such loans, facilities holdings, indirect holdings or synthetic holdings of the AI in sector entity, except where the AI demonstrates to the satisfac such loan was made, any such facility was granted, or any suc ordinary course of the AI's business.	ed to aggregate any amou connected companies, wl s or other credit exposures the capital instruments of ction of the Monetary Aut	nt of loans, here the connected s were direct the financial hority that any		
	Therefore, the amount to be deducted as reported in row 19 n Basel III. Notes to the template (Continued)

Row No.	Description	Hong Kong basis	Basel III basis		
	Insignificant capital investments in AT1 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold)	0	0		
39	 <u>Explanation</u> The effect of treating loans, facilities or other credit exposures to connected companies which are financial sector entities as CET1 capital instruments for the purpose of considering deductions to be made in calculating the capital base (see note re row 18 to the template above) will mean the headroom within the threshold available for the exemption from capital deduction of other insignificant capital investments in AT1 capital instruments may be smaller. Therefore, the amount to be deducted as reported in row 39 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 39 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the AI's connected companies which were subject to deduction under the Hong Kong approach. 				
	Insignificant capital investments in Tier 2 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation	0	0		
54	Explanation The effect of treating loans, facilities or other credit exposures to connected companies which are financial sector entities as CET1 capital instruments for the purpose of considering deductions to be made in calculating the capital base (see note re row 18 to the template above) will mean the headroom within the threshold available for the exemption from capital deduction of other insignificant capital investments in Tier 2 capital instruments may be smaller. Therefore, the amount to be deducted as reported in row 54 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 54 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the AI's connected companies which were subject to deduction under the Hong Kong approach.				

Remarks:

The amount of the 10% / 15% thresholds mentioned above is calculated based on the amount of CET1 capital determined under the Banking (Capital) Rules.

Abbreviation: CET1: Common Equity Tier 1 AT1: Additional Tier 1
