#### Note:

#### 1. Statutory Consolidated Financial Statements

The information set out in this results announcement does not constitute statutory consolidated financial statements.

Certain financial information in this results announcement is extracted from the Group's statutory consolidated financial statements for the year ended 31 December 2022 (the "2022 consolidated financial statements") which will be delivered to the Registrar of Companies and will be available from the website of the Hong Kong Exchanges and Clearing Limited in due course. The auditors have expressed an unqualified opinion on those consolidated financial statements in their report dated 31 March 2023.

#### 2. Basis of Preparation and Accounting Policies

The consolidated financial statements of the Group have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs" is a collective term which includes individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"), accounting principles generally accepted in Hong Kong and the requirements of the Hong Kong Companies Ordinance Cap.622.

These consolidated financial statements have been prepared under the historical cost convention, as modified by the revaluation of investment properties, financial assets at fair value through other comprehensive income, financial assets and financial liabilities held for trading, and financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss, which are carried at fair value.

The preparation of consolidated financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in applying the Group's accounting policies.

The accounting policies and methods of computation used in the preparation of the 2022 consolidated financial statements are consistent with those used and described in the Group's annual audited consolidated financial statements for the year ended 31 December 2021.

The financial information in this results announcement is presented in thousands of Hong Kong dollars (HK\$'000), unless otherwise stated.

There are no HKFRSs or interpretations that are effective from 1 January 2022 or not yet effective that would be expected to have a material impact on the Group.

#### 3. Operating segment reporting

Segment reporting by the Group is prepared in accordance with HKFRS 8 "Operating Segments". Information reported to the chief operating decision maker, including the Chief Executive and other Executive Committee members, for the purposes of resource allocation and performance assessment, is determined on the basis of personal banking, corporate banking, treasury and global markets and overseas banking business. Operating performances are analysed by business activities for local banking business, and on business entity basis for overseas banking business.

Considering the customer groups, products and services of local businesses, the economic environment and regulations, the Group splits the operating segments of the Group into the following reportable segments:

- Personal banking business includes the acceptance of deposits from individual customers and the extension of
  residential mortgage lending, personal loans, overdraft, vehicle financing and credit card services, and the
  provision of insurance sales and investment services.
- Corporate banking business includes the acceptance of deposits from and the advance of loans and working capital finance to commercial, industrial and institutional customers, and the provision of trade financing.
- Treasury and global markets activities are mainly the provision of foreign exchange services and centralised cash management for deposit taking and lending, interest rate risk management, management of investment in securities and the overall funding of the Group.
- Overseas banking businesses include personal banking, corporate banking business activities provided by overseas subsidiaries in Macau and China, and the Group's interest in a commercial bank in China.
- Others include results of operations not directly identified under other reportable segments, corporate investments and debt funding (including subordinated notes).

For the purpose of segment reporting, revenue derived from customers, products and services directly identifiable with individual segments are reported directly under respective segments, while revenue and funding cost arising from inter-segment funding operation and funding resources are allocated to segments by way of transfer pricing mechanism with reference to market interest rates. Transactions within segments are priced based on similar terms offered to or transacted with external parties. Inter-segment income or expenses are eliminated on consolidation.

All direct costs incurred by different segments are grouped under respective segments. Indirect costs and support functions' costs are allocated to various segments and products based on effort and time spent as well as segments' operating income depending on the nature of costs incurred. Costs related to corporate activities that cannot be reasonably allocated to segments, products and support functions are grouped under Others as unallocated corporate expenses.

#### 10. Impairment loss on the investment in an associate

At 31 December 2022, the fair value of the Group's investment in Bank of Chongqing ("BOCQ") had been below the carrying amount for approximately 9 years. On this basis, the Group continues to perform an impairment test on the carrying amount of the investment in BOCQ to assess the recoverable amount.

The impairment test is performed by comparing the recoverable amount of BOCQ, determined by a value in use ("VIU") calculation, with the carrying amount of the investment. The VIU calculation uses discounted cash flow projections based on management's estimates of BOCQ's earnings and dividends to be paid in future, and the estimated probable exit value in future after considering the growth of BOCQ and its net asset value for the medium and longer term. The discount rate applied to the VIU calculation was estimated with reference to BOCQ's cost of equity, which is publicly available in the market.

In performing the VIU calculation to arrive at the recoverable amount of the investment, the Group considers all relevant factors including market views and qualitative factors to ensure that the inputs to the VIU calculation are appropriate. Adjustments need to be made to reflect the latest situation affecting BOCQ and also market outlook for the medium and longer term that are relevant in projecting BOCQ's future performance. Significant management judgement is required in estimating the future cash flows of BOCQ.

Based on the assessment conducted for the position up to 31 December 2022, which takes into account the sensitivity of the key inputs shown above and the effects of possible interaction of these inputs, the recoverable amount, as determined by the VIU calculation and after considering all relevant factors (including the cumulative impairment charge having been recognised as of 31 December 2021) and valuation inputs, remained below the carrying amount. The latest impairment test performed by the Group for the position as at 31 December 2022 concludes that the recoverable amount, based on the VIU calculation, is assessed as lower than the carrying amount, after deducting the cumulative impairment allowance made up to 31 December 2021 of HK\$2,992 million, by HK\$1,683 million. As a result, an additional impairment charge of HK\$1,683 million was recognised in the year of 2022 to reduce the value of the investment to HK\$2,159 million at 31 December 2022.

The calculation of Dah Sing Bank, Limited ("DSB")'s capital adequacy does not include the retained earnings from the investment, except for BOCQ cash dividend received by DSB. Provided that the investment continues to be held at or above the original cost of the investment of HK\$1,213 million, impairment made on the investment does not affect DSB's capital adequacy.

#### 11. Taxation

Hong Kong profits tax has been provided at the rate of 16.5% (2021: 16.5%) on the estimated assessable profit for the year. Taxation on overseas profits has been calculated on the estimated assessable profit for the year at the rates of taxation prevailing in the countries in which the Group operates.

Deferred taxation is calculated in full on temporary differences under the liability method at the tax rates that are expected to apply in the year when the liability is settled or the asset is realised.

HK\$'000	2022	2021
Current income tax: - Hong Kong profits tax - Overseas taxation - Under/ (over)-provision in prior years	352,450 37,772 4	282,406 41,567 (10,978)
Deferred income tax: - Origination and reversal of timing differences Taxation	(29,044) 361,182	(4,872) 308,123

## 12. Earnings per share

The calculation of basic earnings per share is based on earnings of HK\$1,608,800,000 (2021: HK\$1,657,556,000) and the weighted average number of 1,405,752,132 (2021: 1,405,752,132) ordinary shares in issue during the year.

The calculation of diluted earnings per share is based on earnings of HK\$1,507,448,000 (2021: HK\$1,657,556,000) after taking into account of the dilutive effect of share of profits in an associate in HK\$101,352,000 (2021: Nil) and the weighted average number of 1,405,752,132 (2021: 1,405,752,132) ordinary shares in issue during the year after adjusting for the effect of all dilutive potential ordinary shares. The share options outstanding during the year and at the year end have no dilutive effect on the weighted average number of ordinary shares.

DSB as a locally incorporated bank in Hong Kong is required to maintain minimum impairment provisions in excess of those required under HKFRS in the form of regulatory reserve. The regulatory reserve, which also covers Banco Comercial de Macau S.A. ("BCM") and Dah Sing Bank (China) Limited ("DSB China"), is maintained to satisfy the provisions of the Hong Kong Banking Ordinance and local regulatory requirements for prudential supervision purposes. The regulatory reserve restricts the amount of reserves which can be distributed to shareholders. Movements in the regulatory reserve are made directly through equity reserve and in consultation with the HKMA.

As at 31 December 2022, DSB has earmarked a regulatory reserve of HK\$438,466,000 (2021: HK\$432,194,000) first against its consolidated general reserve; and for any excess amount, the balance is earmarked against its consolidated retained earnings.

# 19. Contingent liabilities and commitments

## (c) Assets pledged

HK\$'000	As at 31 Dec 2022	As at 31 Dec 2021
Trading assets and financial investments pledged to secure liabilities - of which: under repurchase agreements	3,185,206 2,453,089	2,593,024 1,518,732
Amount of liabilities secured - of which: under repurchase agreements	2,678,069 1,946,069	2,585,362 1,510,862

The table above shows assets where a charge has been granted to secure liabilities on a legal and contractual basis. These transactions are conducted under terms that are usual and customary to collateralised transactions including repurchase agreements, and include assets pledged to cover short positions and to facilitate settlement processes with clearing houses.

## (d) Operating lease commitments

Where a Group company is the lessor, the future minimum lease payments receivable under non-cancellable building operating leases are as follows:

	As at 31 Dec 2022	As at 31 Dec 2021
Within 1 year	12,165	14,584
Between 1 and 2 years	7,941	3,721
Between 2 and 3 years	6,083	891
	26,189	19,196

In addition, the Group has, as a lessee, entered into a number of leases as at 31 December 2022 and 2021 that have not yet commenced. The aggregate lease payments payable under these leases amount to HK\$16,596,000 (2021: HK\$28,982,000).

(c) Analysis of gross loans and advances to customers and overdue loans by geographical area

Loans and advances to customers by geographical area are classified according to the location of the counterparties after taking into account the transfer of risk. In general, risk transfer applies when an advance is guaranteed by a party located in an area which is different from that of the counterparty.

The following table analyses gross loans and advances to customers, impaired loans and advances to customers (Stage 3), overdue loans and advances to customers, Stage 3, and Stage 1 and Stage 2 impairment allowances by geographical area.

As at 31 Dec 2022

## (d) International claims

The information of international claims discloses exposures to foreign counterparties on which the ultimate risk lies, and is derived according to the location of the counterparties after taking into account any transfer of risk. In general, transfer of risk from one country to another is recognised if the claims against a counterparty are guaranteed by another party in a different country or if the claims are on an overseas branch of a bank whose head office is located in a different country. Only regions constituting 10% or more of the aggregate international claims after taking into account any recognised risk transfer are disclosed.

#### 3. Capital adequacy ratio

	As at 31 Dec 2022	As at 31 Dec 2021
Capital adequacy ratio		
- Common Equity Tier 1	15.2%	14.2%
- Tier 1	15.9%	14.7%
- Total	19.3%	18.1%

The capital adequacy ratio as at 31 December 2022 and 31 December 2021 represents the consolidated position of DSB (covering BCM and DSB China) computed on Basel III basis in accordance with the Banking (Capital) Rules. This capital adequacy ratio takes into account market risk and operational risk.

DSB as a locally incorporated bank in Hong Kong is subject to the minimum capital adequacy ratio requirement under the Hong Kong Banking Ordinance. BCM is subject to Macau banking regulations and DSB China is subject to China banking regulations.

#### 4. Leverage ratio

	As at 31 Dec 2022	As at 31 Dec 2021
Leverage ratio	10.6%	9.9%

The above ratios represent the consolidated position of DSB and are computed on the same consolidated basis as the capital adequacy ratio.

## 5. Liquidity maintenance ratio

	2022	2021
Liquidity maintenance ratio	50.4%	46.9%

The liquidity maintenance ratio is calculated as the simple average of each calendar month's average consolidated liquidity maintenance ratio of DSB (covering BCM and DSB China) for the financial year. The liquidity maintenance ratio is computed in accordance with the Banking (Liquidity) Rules.

DSB as a locally incorporated bank in Hong Kong is subject to the liquidity requirement under the Hong Kong Banking Ordinance. BCM is subject to Macau banking regulations and DSB China is subject to China banking regulations.

#### CORPORATE AND BUSINESS OVERVIEW

#### **HIGHLIGHTS**

Economic conditions in our core market were generally poor, with Hong Kong experiencing recession once again, after the recovery in 2021. Real GDP fell by 3.5%, as the third recession in Hong Kong in four years. Many areas of the economy were weak, with total export of goods dropping by 13.9% and aviation, hotels and tourism remaining at very low levels of activity with the continuation of the COVID restrictions until the end of the year.

Unemployment, however, was relatively benign, ending the year at 3.5%, compared to the April-peak of 5.4%. Inflation was also less of an issue in Hong Kong than in certain other parts of the world, with consumer price inflation registering an average growth of 1.9% for 2022.

The Mainland China economy was also slow, facing headwinds from the continued zero-COVID policy as well as weak trade figures. GDP growth for the year was below target at 3.0%. Inflation remained under control at 2.0% for 2022, while the unemployment rate stayed elevated at 5.5% at the end of the year. Economic conditions in Macau were also under severe pressure, with GDP falling by 26.8% for the year.

Global financial markets performed poorly, with negative returns for most major equity markets, as well as global bond markets. The Federal Reserve raised interest rates in the US a total of seven times to 4.5% by the end of 2022 in an attempt to dampen rapidly rising inflation. Locally, financial markets also performed poorly, with the Hang Seng Index falling for the third consecutive year.

Against the backdrop of weak economic conditions in our major markets, we reported a decrease in profit attributable to shareholders of 3% to HK\$1,609 million for the year ended 31 December 2022. Our results for the year were impacted by two large items: a gain on the termination of our previous insurance distribution agreement and a larger than usual impairment charge on our investment in Bank of Chongqing due to revisions to some of the inputs used in the impairment assessment model. Excluding these two items, our profit attributable to shareholders would have been HK\$1,695 million, an increase of 2%.

For the second half of the year, a dividend of HK\$0.29 per share was declared, making the full year dividend HK\$0.39 per share, an increase of 14.7%.

## BUSINESS AND FINANCIAL REVIEW

Net interest income grew by 11% during the year due both to the improved net interest margin and to higher balances of interest earning assets, despite relatively subdued demand conditions in our core loan markets, mainly driven by higher balances of securities investments. The operating profit before impairment charges of our banking business was substantially higher than the prior year with growth of 61%. However, much of this increase was driven by the gain on the termination of our previous insurance distribution agreement. Excluding this item, operating profit before impairment was up by 2%, and non-interest income was down by 27% for the year.

Loan demand remained weak across most business lines, and our overall loan balances contracted by 5%. The contraction was driven mainly by our corporate banking business, with loan balances in that business segment contracting by 9%. Loan balances in our retail banking business were more stable and we achieved a 4% growth in average loan volume in 2022 as compared to 2021. Net interest margin grew by 13 basis points due to our efforts to control our funding cost during the year, the sharp rise in interest rates during the course of 2022, with asset yields repricing more quickly than deposit costs.

Excluding the gain on the termination of our previous insurance distribution agreement, non-interest income was lower overall by 27%, although performance in various areas diverged. FX-related revenues were somewhat more robust with stable customer business particularly through our retail banking network, whilst other wealth management revenues remained weak due to adverse conditions in most major markets during the year, combined with the continued lack of new life insurance products.

Our credit cost increased substantially during the year, with credit impairment losses increasing by 115% to HK\$803 million. A large part of the increase was reported in our corporate banking business, with one of the key factors in the weaker credit quality being exposures to the Mainland China and in particular the real estate sector. Whilst our overall exposure to those sectors is relatively modest, the rapid worsening in business conditions and credit quality led to a much higher overall credit impairment charge for this business area during the course of the year. In contrast, credit quality in our retail banking business was more stable, despite the recessionary economic conditions in our core markets and the credit impairment charge in this business recorded only a mild increase.

#### **BUSINESS AND FINANCIAL REVIEW (CONTINUED)**

We recorded a modest decrease in our share of the net profit of our associate, Bank of Chongqing, for the year to HK\$657 million. However, due to a reduction in the valuation of this associate company in our regular year end revaluation, we made a further provision of HK\$1,544 million in the second half after a provision of HK\$139 million in the first half, bringing the total impairment charge for the year to HK\$1,683 million. It should be noted that the provision made relating to Bank of Chongqing is non-cash and does not affect our capital adequacy.

As at 31 December 2022, the consolidated Common Equity Tier 1 ratio of Dah Sing Bank, Limited ("DSB") was 15.2%, 1% higher than the level of 14.2% at the end of 2021. Taking into account DSB's outstanding Tier 2 subordinated debts, DSB's consolidated capital adequacy level at the year end was 19.3%, higher than the prior year ratio of 18.1%.

#### **PROSPECTS**

At the beginning of 2023, we were starting to become somewhat more optimistic about the prospects for the year, with the relaxation of COVID restrictions in Hong Kong, and the full reopening of borders. However, as we near the end of the first quarter of the year, it is clear that there are still many uncertainties and much volatility in global markets. The economic outlook in our core markets of Hong Kong, Macau, and Mainland China is somewhat better than the prior year, although this is in part due to a low base effect, particularly in Hong Kong and Macau, with recessions in both areas last year.

Globally, growth in both the US and Europe is likely to be slow, although earlier concerns about more severe recessionary conditions now appear to be reducing. Against this, global markets have been much more volatile than anticipated, and the global financial system has recently been tested by the failures of a number of banks in the US and Europe. Whilst this does not have a direct impact on us, or more broadly on our peer banks in Asia, it is clear that the current level of volatility and concerns over banking stability in other markets pose additional challenges for banks around the world. That said, Hong Kong, our core market, remains stable, with strong regulation and generally high levels of bank capital and liquidity. We expect that to remain the case.

With the higher levels of uncertainty and volatility in the markets, we are cautious on our business operations. We also note continuing caution from many of our customers, despite the somewhat better economic conditions. This means that whilst we expect to make some progress in developing and growing our core businesses during the course of the year, we do not expect at this stage that the progress will be rapid.

On a more positive note, we expect that our Shenzhen branch will become fully operational during the course of the year, making us the first non-Mainland China banking group to operate both a branch and a subsidiary in the Mainland. This will make it easier for us to serve our customers, and we hope that it will also help us to expand our cross boundary business, particularly in the Greater Bay Area.

Looking forward, we expect the new partnership that we announced with Sun Life in January to become fully operational in the second half of the year. This will enable us to resume service to our customers in the life insurance segment, and we believe that this is very important in helping to serve our customers with a range of financial services products throughout different stages in their lives.

#### COMPLIANCE WITH THE CORPORATE GOVERNANCE CODE

The Company has applied the principles and complied with the code provisions set out in the Corporate Governance Code ("CG Code") under Part 2 of Appendix 14 of the Listing Rules throughout the year ended 31 December 2022 ("CG Code"), with the exception of code provision F.2.2.

Pursuant to code provision F.2.2 of the CG Code, the chairman of the board should attend the annual general meeting, and he should also invite the chairman of the audit, remuneration, nomination and any other committees (as appropriate) to attend. In light of the COVID-19 pandemic and border control measures for inbound travellers, Mr. David Shou-Yeh Wong, the Chairman of the Board, was unable to attend the 2022 Annual General Meeting (the "2022 AGM") of the Company held in Hong Kong on 27 May 2022 as he was away from Hong Kong at that time. Mr. Hon-Hing Wong (Derek Wong), Vice Chairman, Managing Director and Chief Executive of the Company, took the chair of the 2022 AGM. Due to the lockdown measures adopted by his country caused by the COVID-19, Mr. Seng-Lee Chan, Chairman of the Nomination and Remuneration Committee ("NRC") of the Company, was unable to come to Hong Kong to attend the 2022 AGM. A member of the NRC of the Company was present and available to answer questions from shareholders at the 2022 AGM.

#### CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted its own code of conduct for directors' securities dealing ("Directors' Dealing Code") on terms no less exacting than the prevailing required standard set out in the Model Code for Securities Transactions by Directors of Listed Issuers ("Model Code") under Appendix 10 of the Listing Rules. Following specific enquiry, the Directors of the Company confirmed that they had complied with the required standard set out in the Model Code and the Directors' Dealing Code throughout the year ended 31 December 2022.

#### **AUDIT COMMITTEE**

The Audit Committee has reviewed with Management the accounting principles and practices adopted by the Group and discussed internal controls and financial reporting matters including a review of the consolidated financial statements of the Group for the year ended 31 December 2022.

#### PURCHASE, SALE OR REDEMPTION OF SECURITIES

There was no purchase, sale or redemption by the Company, or any of its subsidiaries, of listed securities of the Company during the year ended 31 December 2022.

## ANNUAL RESULTS ANNOUNCEMENT AND ANNUAL REPORT

This announcement is published on the websites of Hong Kong Exchanges and Clearing Limited ("HKEX") at www.hkexnews.hk and Dah Sing Bank at www.dahsing.com.

The 2022 Annual Report of the Group containing all the information required by the Listing Rules will be published on the websites of HKEX and Dah Sing Bank in due course. Printed copies of the 2022 Annual Report will be sent to shareholders who have elected to receive printed versions of the Company's corporate communications before the end of April 2023.

#### **BOARD OF DIRECTORS**

As at the date of this announcement, the Board of Directors of the Company comprises Messrs. David Shou-Yeh Wong (Chairman), Hon-Hing Wong (Derek Wong) (Vice Chairman, Managing Director and Chief Executive), Gary Pak-Ling Wang and Nicholas John Mayhew (Deputy Chief Executive) as Executive Directors; Messrs. Robert Tsai-To Sze, Seng-Lee Chan, Blair Chilton Pickerell and David Wai-Hung Tam as Independent Non-Executive Directors.

By Order of the Board **Richard Tsung-Yung Li** *Company Secretary*
