DSB would like to recommend customers to take the following precautionary actions to ensure they are connected to a valid DSB website:

- The official website of DSB is <http://www.dahsing.com>. Customers should access their e-Banking accounts by keying in our official website address at the address bar of the browser, or bookmark our official website and use that function to access their DSB e-Banking accounts.
- Logging in to DSB’s e-Banking service via Security Authentication method (i.e. using fingerprint, Face ID, facial recognition or self-assigned Security Passcode for authentication) can provide customers with extra protection in online transactions and minimise the risk of any unauthorised use of your DSB e-Banking account.

DSB has reported the case to the Hong Kong Monetary Authority and the Hong Kong Police Force. Customers who have provided their personal information to the fraudulent websites or have conducted any financial transactions through those fraudulent websites should promptly call the DSB e-Banking Security Incident Hotline on 3101 3111.
