Risk Disclosures

Key Risks Warning

The key risks associated with CLPGD set out below do not represent all possible risks associated with a particular CLPGD for which you are going to invest. **If you are in doubt about the nature of or the risks associated with this investment product, you should obtain any necessary and appropriate professional advice before investing in this product.**

Principal Guaranteed at Maturity Only

The principal guaranteed feature is only applicable if CLPGD is held to maturity.

Derivative Risk (Not applicable to CLPGD – Fixed Rate Series)

CLPGD is embedded with currency option(s) and a currency swap (if applicable). Option transactions involve risks. When you buy an option, the option value might become worthless if the market moves against your expectation. Generally, swap transaction is subject to market risk, credit risk, liquidity risk, legal risk and settlement risk.

Derivative Risk (Only applicable to CLPGD – Fixed Rate Series)

CLPGD – Fixed Rate Series is embedded with currency swap(s). Generally, swap transaction is subject to market risk, credit risk, liquidity risk, legal risk and settlement risk.

Not a Protected Deposit

CLPGD is not equivalent to time deposit and should not be regarded as a substitute for time deposit. CLPGD is not a protected deposit and is not protected by the Deposit Protection Scheme in Hong Kong.

Foreign Exchange Risk (Not applicable to CLPGD – Fixed Rate Series)

The return of CLPGD is linked to the performance of the reference exchange rate(s). Movements in exchange rates can be sudden and drastic, and affected by complex political and economic factors. You will be exposed to a risk of loss arising from exchange rate fluctuations. If the deposit currency is not your home currency, and you choose to convert it back to your home currency upon maturity, you may make a gain or loss due to exchange rate fluctuations.

Foreign Exchange Risk (Only applicable to CLPGD – Fixed Rate Series)

The return of CLPGD – Fixed Rate Series is linked to the difference between the spot rate and forward rate of the deposit currency and linked currency. Movements in exchange rates can be sudden and drastic, and affected by complex political and economic factors. If the deposit currency is not your home currency, and you choose to convert it back to your home currency upon maturity, you may make a gain or loss due to exchange rate fluctuations.

Exchange Control

For currencies subject to exchange controls imposed by the relevant governments, such as renminbi (RMB), the exchange rates may be easily affected by change in government policies. Such currencies may have different exchange rates quoted in different markets. For example, exchange rates of RMB are quoted in onshore and offshore markets; the onshore rate of RMB is being referred as "CNY" and the offshore rate (i.e. when traded in Hong Kong) is being referred as "CNH". Although CNY and CNH represent the same currency, they do not necessarily have the same exchange rate and may not move in the same direction.

Limited Potential Return

Investing in CLPGD is not the same as investing in the reference currency pair directly. Even if your view of the market movement of the reference exchange rate(s) is correct, the maximum potential return is limited to the pre-determined interest amount for the CLPGD.

Credit Risk

CLPGD is not supported by any collateral or guarantee. CLPGD is subject to the creditworthiness of the Bank. If the Bank becomes insolvent or goes into liquidation or defaults on its obligations under the CLPGD while it is still outstanding, you will

rank as an unsecured creditor of the Bank and could, in the worst case, lose your entire principal irrespective of the terms of the CLPGD.

Liquidity Risk

CLPGD is designed to be held until maturity. CLPGD is not listed on any exchange, has no secondary market and is not transferable. Any termination, cancellation or withdrawal prior to maturity is subject to the sole discretion and consent of the Bank. You may incur significant costs or losses as a result of early termination, cancellation or withdrawal.

Adjustment and Early Termination

The Bank has the right (but not the obligation) to adjust the terms of or to early terminate the CLPGD upon occurrence of certain events. If the terms of CLPGD are adjusted or the CLPGD is terminated by the Bank early, you may suffer a substantial loss under this product. See "Can the Bank adjust the terms or early terminate this product?" in the Important Facts Statement.

Conflicts of Interest

Potential conflicts of interest may arise from the different roles played by the Bank, its subsidiaries and/or its affiliates in connection with the CLPGD. The Bank and/or its subsidiaries and/or its affiliates may enter into, adjust or unwind transactions relating to the relevant currencies, whether for its or its subsidiaries' or its affiliates' proprietary accounts or for account under management or to facilitate transactions on behalf of you or otherwise. In carrying out these roles, the Bank's economic interests and those of its subsidiaries and/or its affiliates are potentially adverse to your interest in the CLPGD.

Not Covered by the Investor Compensation Fund

The CLPGD is not listed on any stock exchange and is not covered by the Investor Compensation Fund in Hong Kong.

Settlement Risk

Upon entering into the CLPGD, you shall assume all settlement risks relating to the Bank failing to settle the CLPGD on, before or after the maturity date.

Suitability

This is a structured product involving derivatives. The investment decision is yours but you should not invest in CLPGD unless the intermediary who sells it to you has explained to you that the product is suitable for you having regard to your financial situation, investment experience and investment objectives.

For Settlement Fund of the Order Sourced from To-be-received Funds

The Bank has the right to cancel an order if it fails to receive the funds to be received by you from another investment transaction on time and there is no sufficient fund placed by you for settlement. Any cost, charges and losses incurred as a result thereof shall be borne by you.

Unless the context requires otherwise, this document does not constitute any offer, invitation or recommendation to any person to enter into any Currency Linked Principal Guaranteed Deposit transaction nor does it constitute any prediction of likely future movements in prices of any foreign currencies.
